

SDBIF FRIENDRAISER

ARTIST PROFILE

CHRISTINA HARDY

Christina Hardy sustained a brain injury from an automobile accident in 1998. After emerging from a coma of several weeks and enduring many surgeries, she began the long process of learning to walk and talk again.

Christina has been helped in her recovery by meeting and sharing with other survivors and friends through the San Diego Brain Injury Foundation. She has gone back to school, and has developed a love and a great talent for the art of glass-blowing. SDBIF is happy that she is back again as one of the Friendraiser featured artists.
