ARTIST PROFILE

HEIDI LERNER

25 years ago Heidi Lerner suffered a severe brain injury, but through her journey to recovery she has become a huge source of inspiration to all of us. She went back to college and got her Master's degree in Special Education so she could take the lessons she learned from her brain injury recovery to inspire others.

Heidi has published the book, **“Gray Matters, Brain Injury: The Inside Perspective”**, as well as becoming a life coach specializing in working with people with brain injuries. She has not let herself be defined by her brain injury and SDBIF is proud to feature her at the Friendraiser!
